Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 24 June 2003.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

## **DETAILED ACTION**

### ***Claims***

Claims 1-55 are canceled. Claims 56-70 are added.

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A, drawn to a method for manufacturing liquid crystal displays comprising the step of depositing liquid crystal material onto a substrate and spinning or rotating the substrate (Please see Specification, page 10, lines 1-5).

Species B, drawn to a method for manufacturing liquid crystal displays comprising the step of depositing liquid crystal material onto a substrate without spinning the substrate (Please see Specification, page 10, lines 5-9).

Species A and B of this application contain claims directed to the following patentably distinct sub-species of the claimed invention:

Sub-species I, drawn to a method for manufacturing liquid crystal displays comprising the steps of depositing the sealant onto a substrate and depositing the liquid crystal material onto said substrate (Please see claims 56 and 59).

Sub-species II, drawn to a method for manufacturing liquid crystal displays comprising the steps of depositing the sealant onto a substrate and depositing the liquid crystal material onto the other substrate (Please see claim 60; please note that claim 60 is currently improperly dependent because it contradicts base claim 56).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, A or B, and single disclosed sub-species, I or II, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, due to claim inconsistencies, a positive determination of generic claims is not currently possible.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election. Please note that claims may be amended to correct improper dependencies and/or avoid limitations drawn to a non-elected species or sub-

species. Any claims that are improperly dependent or otherwise drawn to a non-elected species or sub-species will be considered non-elected.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy L Rude whose telephone number is (703) 305-0418. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H Kim can be reached on (703) 305-3492. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-4900.
